rajeshwarrikkala@gmail.com

Graduate student with two years of industry experience, currently pursuing a master's degree in civil and environmental Engineering. Open to work in an organization combining practical expertise with advanced academic knowledge to enhance cost analysis and project management practices.

EXPERIENCES:

Beacon Infra Ltd, (QS and Billing Engineer), Hyderabad, TS, India

Dec 2019 – Aug 2021

- Successfully conducted material quantity assessments and cost estimations for multi-story commercial and residential building projects, aligning with construction drawings, and leveraging Microsoft Excel for precise calculations.
- Diligently reviewed project specifications and documentation to ensure ongoing work adherence to contractual requirements.
- Identified and managed claims in accordance with contractual obligations and project parameters.
- Proficiently prepared work orders for subcontractors, effectively allocating tasks while maintaining budgetary constraints.
- Skillfully administered monthly running bills for subcontractors, utilizing SAP and Excel for precise Project cost tracking and reconciliation.
- Consistently managing monthly projected cost reports and ensuring they remain up to date with the incorporation of new contract executions.

Projects: Phoenix, Hill top Avenue apartments, Telangana, India

Afcons Infrastructure Ltd, (Graduate Trainee Engineer -QS) Tongi, Dhaka, Bangladesh,

May 2019 – Nov 2019

- Conducted meticulous estimations of quantities for both temporary and permanent station buildings and culverts adhering closely to construction drawings in a Railway Project.
- Collected comprehensive data on materials consumed during the execution phase.
- Developing and maintaining the project budget, tracking expenditures, and ensuring that the project stays within budgetary constraints.
- Prepared monthly subcontractor running bills in line with the actual work executed.
- Assisted the superior in generating client bills for executed works, adhering closely to the Bill of Quantities.
- Collaborating with project managers, architects, engineers, and other stakeholders to ensure that project goals are met within budgetary constraints.
- Supervised the coordination of submittals, Requests for Information (RFIs), Requests for Proposals (RFPs), change orders, purchase orders, and daily logs.
