PROFILE

I am a meticulous team leader with a profound passion for design, ensuring high-quality work through attention to detail. I foster collaboration and innovation, driving our team to exceed client expectations in every project, setting a standard of excellence.

WORK EXPERIENCE

Architect (Remote)

Architecture Design Studio-A.D.S

Sept, 2017-Present

Responsible for designing, planning, and overseeing the construction of buildings, landscapes, and other physical structures. The duties and responsibilities are::

- **Developing design concepts**

Responsible for creating unique design concepts that meet the needs and requirements of their clients while also complying with building codes, regulations, and safety standards.

- **Preparing drawings and specifications:**

To create detailed drawings, plans, and specifications that clearly communicate the design concept to builders and contractors.

- **Collaborating with clients and stakeholders:**

Working closely with clients, contractors, engineers, and other stakeholders to ensure that the design concept meets the needs of all parties involved.

- **Managing project budgets:**

Often responsible for managing project budgets, which includes estimating costs, preparing bids, and negotiating contracts with builders and contractors.

- **Supervising construction:**

Oversee construction to ensure that the design is being executed according to plan, and that quality and safety standards are being met.

- **Conducting research:**

Often conduct research on building materials, construction techniques, and other related topics to ensure that their designs are innovative and up-to-date.

Research Assistant

The Center of Building Knowledge

June, 2023- Dec. 2023

- Responsibilities are scanning of the Existing Buildings, updating Revit files and other documents related to Building.
- Maintaining quality controls standards to preserve the integrity of data and findings and Researching information

Lecturer/ Program Officer

Indus University

Feb, 2017- Jan, 2023

As an interior designing lecturer, my primary duty was to educate and train students in the principles and techniques of interior design. My duties were:

- **Developing curriculum:**

Design and develop course materials, including lesson plans, handouts, and assignments, to ensure that students are receiving a comprehensive education in interior design.

- **Conducting lectures:**

Deliver lectures and lead discussions on a variety of topics, including design theory, color theory, space planning, materials, and lighting.

- **Advising students:**

Advising students on academic and career-related matters, providing guidance on course selection, internships, job opportunities, and professional development.

- **Conducting research:**

Conducting research on emerging trends and technologies in interior design to keep your curriculum up-to-date and relevant.

Architect

Collaborative Design Studio

2015-2017
